

Terms and Conditions for using the RiskNZ Register of Risk Consultants

Thank you for your interest in RiskNZ's Register of Risk Consultants.

Our register of risk consultants is provided as a service to our members and anyone seeking to engage a consultant. We hope it is useful as you start your search for an appropriate consultant to aid you in your project.

Please note that RiskNZ does not promote or endorse any specific risk consultants and all information below is provided by the listed individuals or organisations.

The listed names of risk consultants have declared they have experience, competence and qualifications to handle matters in the fields of expertise shown.

RiskNZ strongly advises that you independently verify a chosen consultant's qualifications and background. Also, ensure that the consultant has appropriate professional indemnity insurance cover before using the consultant's services.

The information contained in the Register is based on the representations made and information provided by listed individuals.

RiskNZ has not checked or verified this information and accepts no responsibility concerning the accuracy or completeness of any information presented in this Register.

The Register of Risk Consultants is provided to the community on the understanding that the choice of consultant is the sole responsibility of the inquirer. To help you with choosing, RiskNZ has also provided a Guide for the Selection of Risk Management Consultants.

Consultants are listed alphabetically, and are not sorted by subject matter expertise or any other criteria. Please read each consultant's synopsis fully to ensure you have the best possible understanding of the skills and experience available to you.

If you would like more information, or if you would like to be listed in the Register, please write to adminofficer@risknz.org.nz.
