

# Risk Standards Workshop Series 2021

Christchurch Auckland  
Wellington Tauranga

**RiskNZ & Advisian are delighted to launch a Risk Standards workshop series for 2021.**

In this series, there are 2 workshops designed to help strengthen organisational resilience. Workshop 1 supports risk practitioners develop better practice around managing disruption related risk, and Workshop 2 aimed at senior executives and board directors, helps strengthen the effective understanding and governance of a portfolio of risk responsibilities.

## Workshop 1 | Managing Disruption Related Risk Workshop. 3 hours

**In 2019 were you ready for the surprises of 2020? Let's not get caught short again as RiskNZ and Advisian help you plan to manage disruption related risk in your business or organisation.**

The AS/NZS5050:2020 Managing Disruption Related Risk workshop focuses on the recently released standard, and takes you through processes to detect early indicators of disruption, identify opportunities that can be generated from disruptions, and enhance your organisation's ability to weather and prosper from the changes disruption creates. AS/NZS 5050 is a tool to help prepare for, and to take advantage of disruptions.

This session is suitable for anyone dealing with or planning for the impact of disruptions on business operations. Over 3 hours, the workshop will alternate between presentations and interactive group sessions:

- Introduction
- Concepts and Tools - *including short exercise*
- Reacting to Disruption - *including short breakout session*
- Break
- Identifying Resiliency in your Organisation
- Planning for dynamic change
- Lessons and Opportunities - *Interactive session*
- Assessment of Existing Processes for Changing Circumstances
- Don't Forget Communication!

## Workshop 2 | Risk Management Guideline for Top Management. 2 hours

**It isn't easy making governance decisions about risk. How much information do decision makers really need and are they informed enough to feel confident about a portfolio of risk responsibilities?**

Since the release of ISO 31000 (2018), there has been a need for tools that specifically help senior management and governance leaders drive organisational risk competency.

This 2-hour workshop led by RiskNZ and Advisian, supports senior leaders implementing the risk responsibilities of Boards and Executives.

This session is suitable for those accountable for organisational risk exposures and decisions; and those that present risk information to them. Over 2 hours, the workshop will alternate between presentations and interactive group sessions:

- Introduction
- What does top management need to know in order to make sound decisions
- Responsibilities and accountabilities - *including short exercise*
- Embedding risk appetite in an organisation
- Individual and collective risk exposures - *including short exercise*
- Break
- Presenting risk Information and asking the right questions - *including short breakout session*
- Assessing organisational risk performance
- Risk as a strategic planning tool - *including short exercise*
